Stopwatch

- **Instructions**:
  - Make a page with a a simple timer that sends an alert and plays a sound after 15
  - Unzip the attached file.
  - Open stopwatch.js and follow the instructions in the file.
  - You will not not need to edit the HTML file we give you.
  - Use jQuery and the timing events you learned today to create a stopwatch with Start, Stop and Reset buttons.
  - **Bonus**: Add a lap timer.
  - **Bonus**: Use CSS to style the timer
